

Agentic AI Governance Service Specific Licensing Terms

Additional Definitions, as applicable:

"AI Application" means a discrete artificial intelligence or machine learning model, system, tool, or use case (whether developed internally by Customer, procured from a third party, or embedded within another application) that Customer designates within the Service for governance, risk assessment, and/or compliance monitoring purposes.

"AI Application Governed" means an AI Application for which an assessment, evaluation, or risk review has been initiated or completed within the Service using agentic features. For clarity, an AI Application that is merely inventoried, registered, or tracked within the Service, without an assessment having been initiated or completed, does not constitute an AI Application Governed.

Additional Terms:

1. **Agentic AI Governance Instances.** AI Governance is only available to be hosted in the US or Ireland on AWS.
2. **Optro AI Terms.** To the extent Optro AI Terms are not incorporated into Customer's Subscription Agreement with Optro and Customer has not agreed to Optro's in-app AI clickthrough terms, the Optro AI Terms located at <https://www.optro.ai/enterprise-agreements> shall apply to all purchases of Agentic AI Governance.
3. **DPA.** To the extent that Customer does not have a Data Processing Addendum ("DPA") incorporated as part of their Agreement, the DPA located at <https://www.optro.ai/enterprise-agreements> shall apply to Customer's use of Agentic AI Governance.
